

## Computer Lab Planned for MAM's Bethel LaBelle Ctr.

Several community groups have teamed up to help provide a computer lab at **Memphis Athletic Ministries'** Bethel LaBelle neighborhood center.

The Irvin Lansky Foundation; the Butler, Snow, O'Mara, Stevens & Cannada Foundation; and the Internal Revenue Service came together to make the lab happen.

The two foundations awarded **Memphis Athletic Ministries** grants used for the necessary infrastructure, and the IRS, with the help of Upward Steps Ministries, donated the computers.

The lab is part of MAM's master plan to provide access to technology and high-speed Internet services to children in underserved neighborhoods at all of MAM's 12 centers.
